2. Department of Psychology, Université de Montréal, Montréal QC H3C 3J7, Canada

3. NeuroPoly Lab, Institute of Biomedical Engineering, Polytechnique Montréal, Montréal, QC, Canada

4. Functional Neuroimaging Unit, CRIUGM, Université de Montréal, Montréal, QC, Canada

5. École d'orthophonie et d'audiologie, Faculté de médecine, Université de Montréal, Montréal, Québec, Canada

Aims

- Train Artificial Neural Networks to behave in a more human-like manner
- We believe this can be achieved using extensive whole-brain activity recordings of brain networks in naturalistic tasks.
- Acquire extensive neuroimaging data on small number of participants.
- Openly share data with the academic community.

Methods

SUBJECTS

6 healthy individuals,
3 women and 3 men

Extreme scanning

Over 500h of functional
neuroimaging per subject

VIDEO GAMES ETC

Wide range of cognitive tasks
Extensive naturalistic
paradigms (movies, games...)

fMRI

Functional Magnetic
Resonance Imaging acquired
on a 3T Prisma Siemens,
simultaneous multislice imaging

MEG

Magnetoencephalography
acquired on a 275-sensor
CTF Ltd. system.

BIOSIGNALS

Biosignals concurrent to imaging
(cardiac, respiratory,
skin-conductance, eye-tracking)

Datasets

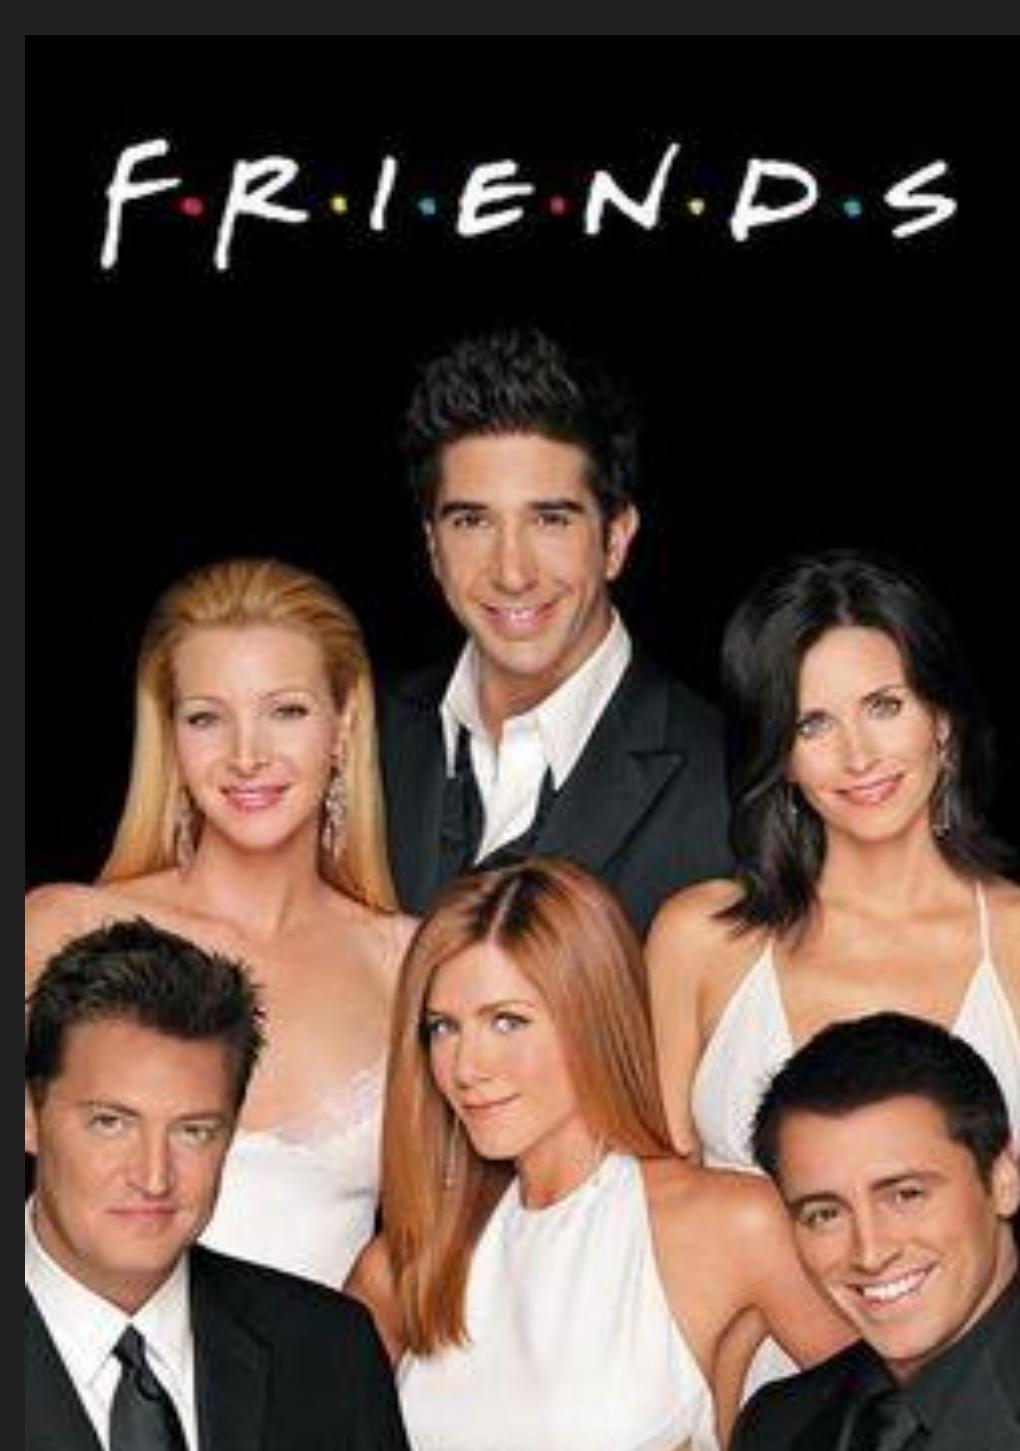

Anatomical (q)MRI (2x/year)

- Brain: T1w, T2w, DWI, MTw, PD, MP2RAGE, SWI
- Spinal Cord standard protocol¹: T1w, T2w, DWI, MTw, PD, T2Star

Movie10 (12h) 🎬

Friends season 1 (9h) 📺

HCP test-retest (10h)

- 4 participants completed
- 15 repetitions of HCP functional localizer

Release

Raw / Preprocessed data (fMRIprep²) in BIDS³ via Datalad⁴

Data access

- Beta release to arrive summer 2020
- Release candidate in September 2020
- Registered access with DTA for academic researcher

Future 2021 release

Datasets

- Shinobi (video game)
- Image10k (ER-image db)
- More seasons of Friends
- Language triplet task
- Emotions (emotionally rated video clips)
- Memory task (associative space-item)

Features

- Preprocessed physiological signals (fMRI artifacts)
- Rich annotation of stimuli (scenes, images, dialogues, ...)
- Data fetcher (easy data loading for ML)

Acknowledgement
